## Bring Your Own Device (BYOD) Agreement 2022

27/10/2021

Dear Year 3 - 6 Parents / Caregivers

Glenelg Primary believes there is a distinct advantage of having a Bring Your Own Device (BYOD) technology strategy and has put this in place to support the teaching and learning of students in Year 3 - 6. Our network can support a range of mobile devices such as iPads, laptops, tablets, and MacBook, but **not** devices with a Linux or Android-based operating system (eg Samsung & Galaxy).

**In 2022, the preferred BYOD device for Year 3 - 6 is an iPad. (iPad 8<sup>th</sup> Gen, or 9<sup>th</sup> Gen, not a mini, with 64 or 128 GB memory).**

**A mobile phone is NOT considered a preferred BYOD device and is not to be connected to our network.**

**Students do not need to bring a device to school.** If a student does not have access to their own device the school will have some available in the classroom.

To participate in our BYOD program and to access the school network please complete the BYOD Agreement attached. Then bring the device to our network manager to arrange for a security certificate to be installed. If the device has a parental lock or password, the parent may need to meet or contact the network manager.

### Acceptable Use Agreement

At the start of the year parents/caregivers review and sign the Acceptable User Policy with their children, and this agreement must be adhered to for any device students bring to school. **Students participating in the BYOD strategy must adhere to the Acceptable User Policy as well as this agreement.**

- Students / Parents take full responsibility for their devices. The school and its staff are NOT responsible for the security of personal devices but will do everything they can to secure all devices. Parents are responsible for the insurance of personal devices.
- Students are responsible for keeping their devices secure while at school. Classrooms will be locked wherever practical.
- Devices cannot be used outside the learning area unless directly indicated by the teacher.
- Students must immediately comply with staff requests to close a device. Devices must be on silent mode and put away when asked by a staff member.
- Students are not permitted to take images/video of any person at school and post them to any public or social network.
- Personal Devices must be charged before bringing them to school, and run off their own batteries at school. There are no facilities to charge any personal device at school.
- Printing facilities are not available from these personal devices while at school.
- Devices staff believe have been used for illegal activity will be collected and examined by the police.
- Only the student who brings the device is allowed to use the device. Devices will not be shared.
